Coaching programme

ESTRI accompanys its students in the developpement of their professional project through an unique programme composed of 3 units:

Academic preparation / professional preparation / Personal development

- Academic strengthening to ensure academic success (95% success in the B.A in Applied Foreign languages)
- Professionalizing workshops programme managed by a team of consultants to develop skills and qualities of each student
- 4-week intensive training at the beginning of the 1st year to improve language proficiency and learn university methodology
- Personalized tutoring to develop self-confidence
- Coaching to ensure the achievement of student's professional project:
 1. by a study manager ensuring constant academic follow-up of students
 2. by a team of internship managers preparing students for periods of mobility
